

Rate**Board**

RateBoard

RateBoard makes rate benchmarking for trades and services as easy as accessing a web page. You simply create a RateBoard for plumbing, electrical services, shop fit outs, rental equipment etc, map the rates you want to track such as standard hourly rates, call out fees, 24x7 fee, public holidays, then map the skills you need such as: post code coverage, skill maps and mobile plant capabilities. Invite your suppliers to bid and sit back and enjoy national and regional rate benchmarking.

RateBoard is a quick catalogue, it allows suppliers to feed in price and base capability so you have a current

benchmarked view. RateBoard is smart, it comes with a Chat Forum, shared documents for suppliers, and a KPI engine for scheduled rate reviews.

As updates occur, history is tracked and your team is alerted, in addition you can link in our CPI controls and let the system automatically track and control CPI movements negotiated with suppliers.

Fully automated, RateBoard never closes and when new suppliers knock on your door, you don't have to say next year, you say show me now, a single click streams new rate benchmarking data to you in real time.

KEY FEATURES

INTEGRATED DESIGNER

- ✓ Customisable controls
- ✓ Supplier view only fields
- ✓ Supplier edit fields
- ✓ Internal only view fields
- ✓ Unlimited fields
- ✓ Map field for evaluation
- ✓ Weight individual criteria for benchmarking

CONTROLS

- ✓ Unlimited RateBoard usage

- ✓ Link in CPI controls
- ✓ Track any price shift by suppliers
- ✓ Lock supplier to selective items only

TOOL BOX

- ✓ Integrated KPI's with performance targets
- ✓ Shared document register
- ✓ 3-way chat forum
- ✓ Notes log
- ✓ Security controls

CONNECTIVITY TOOLS

- ✓ Open users
- ✓ No supplier fees
- ✓ No per user fees
- ✓ Click in access controls

ONLINE

- ✓ Supplier data entry
- ✓ Line items, audit trails on changes

KEY USAGE

- ✓ Rates management for trades & services

KEY BENEFITS

Single Cloud
Based Platform

Buyers

RateBoard is a great benchmarking tool. You have a pool of capable suppliers and you want visibility on their rates. Tenders are too slow, and catalogues don't give you the controls you need.

Shared
Supplier Pool

Suppliers

Suppliers are increasingly looking to influence their position in the market, but reaching buyers is almost impossible from their own websites. Rate Board offers an instant connection with customers. Suppliers can push price advantages directly to the core buy, its free, instantaneous and allows the suppliers to impact the entire market within minutes of pricing stages being developed.

PRICE

\$55 per
month
incl GST

APP SPECIFICATIONS

RateBoard uses

- ✓ ITC services
